To obtain a challenging and responsible position in a dynamic company, utilizing my professional qualifications for the progress and the success of the organization and to update myself with the latest technologies, thus progressing in my career.

WORK EXPERIENCE

ConsoliAds(TechACOS), ARFA Tower (December 01, 2022 - Present)
Software Engineer

As a software engineer at TechACOS, I am currently utilizing various technologies to build scalable and efficient web applications. Some of the key highlights of my work include:

- Using ReactJS to build reusable and efficient components
- Implementing Redux for state management in large-scale applications
- Integrating React Router to handle client-side routing in single-page applications
- Using Axios to handle asynchronous data fetching from REST APIs
- Leveraging Material UI and Styled Components to create visually appealing and responsive UI's
- Implementing React Bootstrap and Tailwind CSS to expedite UI development
- Using Formik to handle form data and validation in React applications
- Utilizing the latest features of NextJS to build server-side rendered applications.

ZPZEN Technologies , Vehari (June 09, 2020 - November 16, 2020)
Frontend Developer

Over the past six months, I have had the opportunity to work on multiple projects with the team at ZPZEN Technologies. This experience has been incredibly valuable, as it has allowed me to gain a diverse range of experience and skills.

Freelance/Locally (April 11, 2021 - Present)
ReactJS Frontend Developer

As a Frontend Developer, I have been working for over a year , providing quality products to customers both through freelance platforms and locally.
